Mar 3, 1996

German

https://profile.timo-achtelik.de

Full-Stack Software Engineer with 7+ years of experience designing, building, and maintaining scalable web platforms. Strong background in frontend and backend development with Angular, Vue.js, React, Node.js, and .NET. Proven experience in modernizing legacy systems, applying Domain-Driven Design, and working in microservice-based architectures. Focused on clean code, long-term maintainability, performance optimization, and DevOps automation.

SKILLS

- Frontend & Frameworks: Angular, Vue.js/Nuxt, React/Next.js, TypeScript, Tailwind, State Management (NgRx, Pinia), Testing (Jest, Playwright, Cypress)
- Backend & Architektur: Node.js, C#/.NET, Python, NestJS, REST & GraphQL APIs, Prisma ORM, Microservices, DDD, Clean Architecture, Auth (JWT, OAuth2), Redis Caching
- DevOps & Cloud: Docker, Kubernetes, CI/CD (Azure DevOps, GitHub Actions), PostgreSQL, AWS, Azure, Monitoring (Sentry, New Relic)
- Scrum, Architectural decisions , Code Reviews, Mentoring, UX-/UI-optimizing, Performance-Tuning

LANGUAGES

- German | Native
- English | Advanced

EXPERIENCE

LEAD SOFTWARE ENGINEER — **Mar 2026 - Present**
BAYOOTEC GmbH | Darmstadt

Technical leadership for projects and product releases in a full-stack environment

Point of contact for clients regarding technical and conceptual issues

Architectural strategy with a focus on scalability, maintainability, and UX quality

Mentoring the development team and actively improving development processes

SENIOR SOFTWARE ENGINEER — **Mar 2024 - Mar 2026**
BAYOOTEC GmbH | Darmstadt

Full-stack development using Angular, Vue.js, Node.js, and C#/.NET for international client projects

Design and optimization of CI/CD pipelines and containerized environments (Docker)

Technical specifications, code reviews, and quality assurance across multiple projects

Coaching developers and collaborating across teams with product owners and UX professionals in a Scrum environment

JUNIOR SOFTWARE ENGINEER — **Oct 2023 - Mar 2024**
BAYOOTEC GmbH | Darmstadt

Developing high-quality front-end features using Nuxt.js (Vue.js) based on agile development methodologies

Contributing to architectural decisions and performance optimization of existing applications

Participating in automated testing and deployment processes (unit tests, integration tests)

Assisting with requirements analysis and effort estimates within the Scrum team

WORKING STUDENT SOFTWARE ENGINEER — **Feb 2017 - Oct 2023**
BAYOONET AG | Darmstadt

Developed and maintained responsive web applications and desktop tools using AngularJS, Vue.js, C#, Razor, and .NET. Improved UI/UX responsiveness and frontend performance. Participated in testing, documentation, and refactoring tasks.

VOCATIONAL TRAINING — IT SPECIALIST (APPLICATION DEVELOPMENT) — **Aug 2014 - Jul 2016**
Sage Software GmbH | Frankfurt

Development and maintenance of application modules for Sage Office Online. Frontend implementation using AngularJS, HTML, and CSS.

Gained solid foundations in software engineering principles and database development. Exposure to professional development workflows, code quality standards, and structured documentation

INTERN (TECHNICAL COLLEGE PROGRAM) — **Aug 2012 - Jun 2013**
Software AG | Darmstadt

Support in Business Process Management (BPM). Initial experience in software modeling and process analysis

EDUCATION

MASTER OF SCIENCE (SOFTWARE ENGINEERING) — **Apr 2020 - Oct 2023**
Hochschule Darmstadt | Darmstadt

Master's Thesis:

From Legacy to Innovation: Domain-Driven Transformation and Low-Code Development as Catalysts for System Modernization

- Analyzed modernization strategies for legacy enterprise systems
- Applied Domain-Driven Design to restructure complex domains
- Evaluated how Domain-Specific Languages (DSLs) improve reusability, adaptability, and maintainability of low-code platforms
- Focus on long-term system evolution, architectural boundaries, and developer efficiency

BACHELOR OF SCIENCE (INFORMATIK) — **Oct 2016 - Oct 2020**
Hochschule Darmstadt | Darmstadt

Bachelor's Thesis:

Concept and Evaluation of Migrating a Conventional Content Management System to a Headless CMS Architecture

- Designed and evaluated the transition from a monolithic CMS to a headless, API-driven architecture
- Compared flexibility, scalability, and frontend decoupling approaches
- Assessed impacts on maintainability, performance, and developer workflows

VOCATIONAL TRAINING — IT SPECIALIST (APPLICATION DEVELOPMENT) — **Aug 2014 - Jul 2016**
Sage Software GmbH | Frankfurt

CERTIFICATIONS & COURSES

OWASP
Microsoft Certified: Azure Developer Associate (AZ-204) (geplant 2026)

REFERENCES

Recipe Hub - Full-Stack Reference Project

https://recipe-hub.timo-achtelik.de

https://github.com/timoachtelik-dev/next-recipe-hub

- Design and implementation of a modern full-stack web application using Next.js
- Focus on scalable frontend architecture, search functionality, and responsive UI
- Demonstrates clean architecture, maintainable code, and modern React patterns

Personal Portfolio & Freelance Website

https://profile.timo-achtelik.de

- Professional portfolio showcasing projects, skills, and technical focus
- Emphasis on performance, clarity, and modern frontend standards

STRENGTHS

Reliability, sense of ownership, analytical thinking, teamwork, strong communication skills, willingness to learn, quality awareness, resilience, problem-solving ability, sense of responsibility, customer orientation, openness, commitment
